Happy New Year and welcome to the second quarterly newsletter aimed at keeping you up to date with the construction works at Black Rock Quarry, Portishead.

This newsletter will provide details of key milestones, general progress and information on construction activities and events. We hope you find this newsletter useful and informative.

**Latest News**

Work is progressing well on site with the structure nearing completion. Roofing works have commenced and the floor slab works are progressing well. We remain on target for building completion by July 2013.

The site hours will generally be 0700 to 1800 Monday to Friday.

Over the next few weeks, the steel frame and roofing works will be completed. The internal fit out works will also commence, as well as the external gabions works. Drainage and external works will also commence, with the overall scheme really starting to take shape.

Community Projects

Regular liaison with the local businesses, authorities, schools and colleges continues as we build close links in the area. We are involved in a variety of projects including:

- **Gordano School**: We are creating a business partnership with Gordano School and have been working closely with them to provide careers advice, curriculum support, site visits and events. We are working on a variety of other projects which we plan to move forward over the coming months.

- **Props Forward**: This charity provides a range of life enhancing opportunities for young people with learning and physical disabilities. We offered the opportunity for the young people engaged with Props print production enterprise the opportunity to design and produce the signage for the site.

**Considerate Constructors Scheme (CCS)**

The Black Rock Quarry site had their first visit in December and achieved 36 out of 40. This means we have an exceptionally considerate site. Find out more about the Considerate Constructors Scheme by visiting their website [http://www.ccscheme.org.uk](http://www.ccscheme.org.uk)

**Blue Light Partnership Corporate Responsibility Plan**

The plan details how we will work to deliver tangible outcomes for the local area through employment initiatives and the use of local suppliers and contractors. To date £3.8m out of £9.1m has been placed within a 35 mile radius of the site.
